Ebay's Sales Tax Calculator

Automated Testing Plan

The tester would apply automated testing using Selenium to record some of the test cases.

The tester would apply automated testing using Excel Formulas. The sales tax calculation of each test with different tax rate based on different counties can be cumbersome. Hence,

Test Case ID	PTFL0009		
Component	Ebay's Sales Tax Calculator in the Checkout software		
Purpose of Test Case	To see if the Ebay properly rounds the Florida sales tax amount with respect to DR-2X, rounding bracket set by the state of Florida.		
Functional Test Type	Scenario Based Testing with the scenario that the checkout software of Ebay does not charge sales tax for Florida seller per rounding set by the state of Florida in DR-2X, when the seller is a regular merchant.		
Pre-Conditions	The rounding of sales tax exists because sometimes, for example, 7% of \$0.50, is 3.5 cents, which should be rounded down to 3 cents or rounded up to 4 cents, as the smallest U.S currency is a hundredth of a dollar, which is a cent. That means, a cent can not be broken into 2 pieces to account for 0.5 cent. The state of Florida set the rounding bracket system in DR-2X Form.

Analysis of Program graph & DD-Path Graph

The algorithm for the Sales Tax Round Bracket for integer% (6%, 7%, 8%) is very simple. If the decimal value of the taxable amount (Taxable Amount – Taxable Amount Rounded down to whole integer, for example, \$5.25 has integer amount of 5 and decimal amount of 0.25.) is lower than .10, then the sales tax amount is rounded down to nearest hundredth of a dollar.

However, if the decimal value of the taxable amount is .10 or greater, then, the sales tax amount is rounded up to nearest hundredth of a dollar.

Thus, the DD-Path Graph has one if statement which has two options for decimal value lower than .10 and .10 or greater.

The DD-paths are as follows;

1. A->B->C->E->F
2. A->B->D->E->F

DEFECT REPORTING FORM

DEFECT ID: PLDF0002

TITLE: The incorrect amount of sales tax on Ebay sale from a merchant seller
COMPONENT: Ebay's shopping cart software
REPORTED BY: Han Lee **SUBCOMPONENT:** The Sales Tax Calculator.
REPORTED ON: 4/24/2019 **VERSION:** Ebay

PLATFORM: PC **RESOLUTION PRIORITY:** P1 – Crash, no work around
OPERATING SYSTEM: Windows 10 Enterprise **RESOLUTION**
SEVERITY: S1 – Highly visible defect.
RELATED TEST CASE IDS: PTFL0001
CONSISTENCY: Consistent

DEFECT SUMMARY:

With the shipping address of hosford, Liberty County, the sales tax rate is 8%. However, \$1.81 was charged on the taxable sales amount of 21.29 where the 1.81/21.29 is 8.5%. Thus, the Ebay Sales Tax Calculator is overcharging 0.5% on the item.

STEPS TO REPRODUCE:

Go to Ebay.com and make an account with any Florida address except for Hillsborough county (Hillsborough County is the only county with 8.5% rate) and search costume sold by the vendor 7thavenuestore and check the sales tax amount. Regardless of the county of shipping address in Florida, it will always calculate 8.5% sales tax regardless of which Florida county.

COMMENTS:

The peculiar thing is that Ebay correctly charges the Florida sales tax with the correct sales tax rate with respect to county when the seller was "Adidas". On the other hand, when the seller was 7thavenuestore, this defect happened.

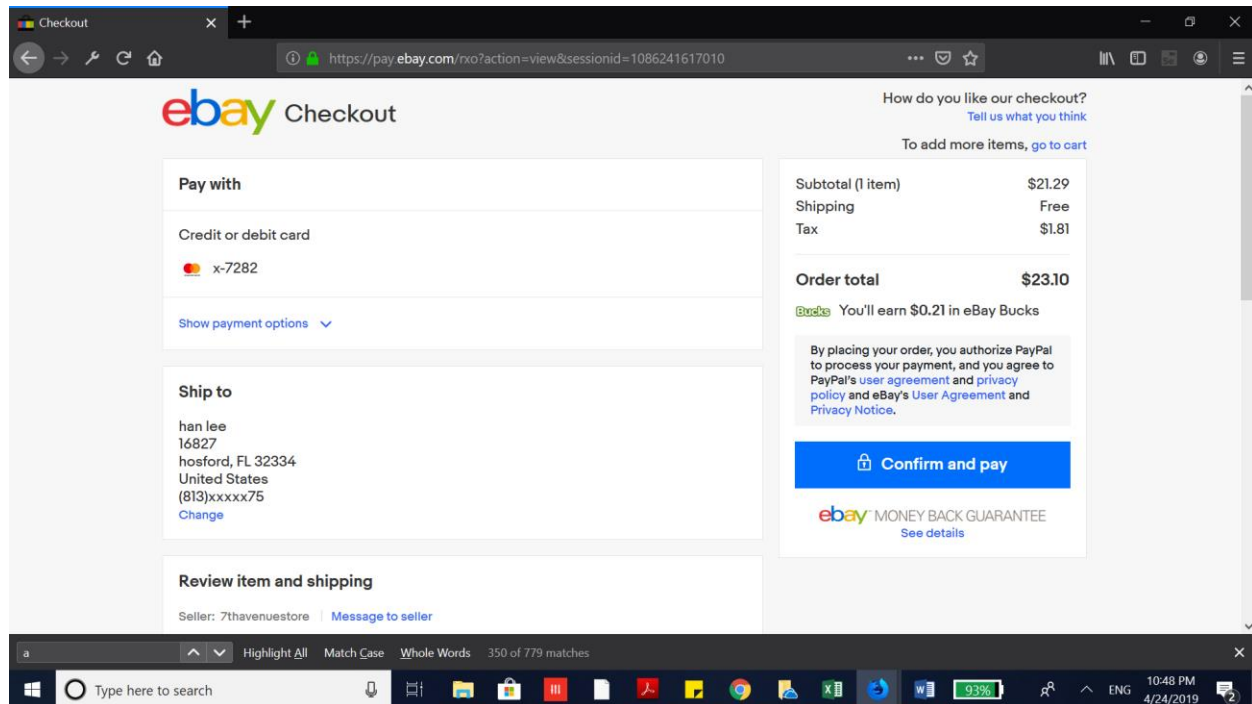

ATTACHMENTS:

1. Screenshot of the checkout of costume with the shipping address with Liberty County.

SEVERITY: S3 – Livable defect.
RELATED TEST CASE IDS: PTFL0009
CONSISTENCY: Consistent

DEFECT SUMMARY:

The sales tax of \$1.84 was calculated on the taxable subtotal amount of \$21.69. However, the correct amount of sales tax is \$1.85, as set by the state of Florida in DR-2X Form. The amount can be calculated on \$20 ($\$20 \times 8.5\% = \1.70) and the \$1.69 of sales fall in the interval of \$1.65~\$1.76 in DR-2X, where the sales tax amount is \$.15. Thus, the total sales tax amount is \$1.85 ($\$1.75 + \0.15).

STEPS TO REPRODUCE:

Go to Ebay.com and make an account with any Hillsborough county address and search costume sold by the vendor 7thavenuestore and check the sales tax amount. Put one costume in the shopping cart and check the sales tax amount if it was rounded correctly.

COMMENTS:

This defect is a livable defect as it is the least material.

ATTACHMENTS:

1. Screenshot of the sales tax of \$1.84 when the taxable subtotal amount is 21.69.
